SPRING **2020**  
Indonesian Statues  
WHOLESALE CATALOG

In 2000 we shipped our first container of statues from Indonesia to bring the feeling of Bali to our Kauai home and share these treasures with others through our aquatic plant nursery, Garden Ponds.

Over the years, thousands of statues have passed through our hands and found homes on some of Kauai's most beautiful estates, on the continental US, and beyond.

We've partnered with many talented artisans and formed a network of carvers, warehouses, and transportation specialists. Our strategic partnerships allow us to bring in a high quantity of quality merchandise, at great prices. Many of these artisans are located in remote areas, with little access to the internet or other methods of marketing their craft.

Our vision for 2020 is to create easier access for more people to purchase these works of art. To that end, this, our first catalog, showcases the variety of carvings available for retailers to choose and purchase the perfect pieces for their home and garden center's customers. We are excited to get this offering in your hands.

To order, email a completed order form and we will provide quote and approximate transit times. Happy shopping! We're here to answer any questions and guide you through the process.

Much Aloha,

*Ken, Jan  
& Jake Bernard*

# Stone types

Each hand-carved statue is available in blue Basalt, Andesite, Lava Stone, or sometimes Limestone. Stone choice will affect the overall look, level of detail achievable, weight and price of the piece.

**Blue Basalt** Blue Basalt is the highest quality stone our carvers work with. It's smooth, shows little texture, dense and very hard. The intricate details and quality of the carvings achievable with this stone are unrivaled. Statues carved in Blue Basalt will have a much deeper level of detail than any other stone. It is the premier choice for customers wanting the highest quality carving possible. It ages somewhat slowly and beautifully.

**Lava Stone** Rich and darkly toned Lava stone is volcanic rock. It's less smooth than blue Basalt with some natural pitting. This stone holds detail better than Andesite and not quite as good as Blue Basalt. Lava stone will age somewhat quickly and develop a beautiful green lichen and moss coating. It's an appropriate choice for any Hawaii bound sculpture, or to add a tropical flair to any climate.

**Andesite** A popular choice, andesite has a neutral tone and large rock inclusions that add personality to each piece. This is the lowest priced stone our carvers work with. Even though a beautiful result can be achieved, the level of detail possible is much less than that of Blue Basalt. Andesite will age and weather beautifully in any climate.

# Custom Creations

Not finding what you're looking for? Our team of talented carvers can create or replicate pieces to meet your specifications.

## Modify

We can have statues made in different sizes or materials than what's listed. Found your perfect Buddha but want him eight foot tall in lava stone? We can do that. Modifications could also include different mudras, pedestals, or other feature changes.

## Create

We can create a carving from scratch. These might include a memorial for a loved one, or something unique to you. **Extensive** If you think that others would love your custom creation it can be replicated for resale. **Exclusive** Some creations are very personal therefore if you choose so, there will be only one.

## Replicate

If you've seen the perfect statue send us photos and we can recreate it. This is a good option for statues made of other materials, such as bronze or wood that you would like to have in stone. **Cast** Which ever statue you choose remember that exact copies can be made of it in cast concrete. Concrete is less expensive and much faster to make than our hand carved statues. They can also be finished in a number of ways for a variety of end results.

Whatever you're looking for, we're happy to guide you through the creation journey.
